

Atik SDK License Agreement

Copyright © Atik Cameras Lda. All rights reserved.

IMPORTANT – READ CAREFULLY BEFORE USING THE SOFTWARE

By downloading, installing, accessing, or using this Software Development Kit (“SDK”), you agree to be bound by the terms of this Licence Agreement (“Agreement”).

If you do not agree with these terms, do not install, access, or use the SDK.

1. Grant of License

Atik Cameras ("Atik") grants you a non-exclusive, royalty-free license to use, copy, and distribute the Atik Software Development Kit ("SDK") and its associated binaries, headers, documentation, and example code, solely for the purpose of developing or using software that interfaces or operates in conjunction with Atik cameras and related products.

2. Free Use and Redistribution

You may freely use and redistribute the SDK, in whole or in part, provided that:

- This license agreement is included with all copies or redistributions; and
- The SDK is not misrepresented as originating from any entity other than Atik.
- You do not modify or remove any copyright, trademark, or proprietary notices.

You may include Atik-provided dynamic link libraries (DLLs) or redistributable components within your own software products, provided that such products are designed to operate with Atik cameras.

3. Restrictions

You must not, under any circumstances:

- (a) use the SDK in or with products or services that compete with those of Atik Cameras;
- (b) remove, alter, or obscure any copyright, trademark, or proprietary notices contained

in the SDK.

4. Digitally Signed Binaries

Certain SDK components, such as DLLs, are digitally signed by Atik Cameras to ensure authenticity and integrity.

You may not modify, tamper with, or remove the digital signature from these binaries. Redistribution of unsigned or modified versions of these DLLs is not permitted.

If redistribution of the DLLs is required as part of your product, they must remain unmodified and signed by Atik.

5. Ownership and Intellectual Property

The SDK and all associated materials remain the exclusive intellectual property of Atik Cameras. This agreement does not transfer any ownership or intellectual property rights in or to the SDK or any of its components. All trademarks, trade names, and product names of Atik Cameras remain its property.

6. Updates

Atik Cameras may provide updates or improvements at its discretion.

Nothing in this Agreement obliges Atik Cameras to provide support, maintenance, or new versions.

7. No Warranty

The SDK is provided “as is” without any express or implied warranty, including but not limited to warranties of merchantability, fitness for a particular purpose, or non-infringement. You assume full responsibility for your use of the SDK and any outcomes arising from it.

8. Limitation of Liability

In no event shall Atik Cameras or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of data, or any other pecuniary loss) arising out of the use of or inability to use the SDK, even if advised of the possibility of such damages.

9. Export and Compliance

You agree to comply with all applicable export control laws and regulations.

You shall not export, re-export, or transfer the SDK to any country, person, or entity prohibited by applicable law or by Atik Cameras.

10. Amendments

Atik Cameras reserves the right to amend or update this Agreement at any time by publishing a revised version on its official website.

Continued use of the SDK after such publication constitutes acceptance of the revised terms.

11. Termination

This license is effective until terminated. It will terminate automatically, without notice, if you fail to comply with any term of this agreement. Upon termination, you must cease all use of the SDK and destroy all copies in your possession.

12. Governing Law

This agreement shall be governed by and construed in accordance with the laws of Portugal, and the Portuguese courts shall have exclusive jurisdiction over any disputes arising hereunder.
